Bridge

The bridge from Faber Hill to Telok Blangah Hill under construction, shot from the lower side on Henderson Street:

managed to catch a couple of the workmen on 4x zoom shot, so tried enlarging 3.5x to see effect:

quite poor; for comparison, used 20x telephoto lens on a different camera

better, but it was extremely hard to capture moving objects using high zoom lens - managed to get face by chance on one shot, and only caught the shirt in the other.
